Researchers develop tiny windmills that can power your gadgets (video)

[Researchers develop tiny windmills that can power your gadgets \(video\)](#)

Portable

solar chargers aren't so out of the ordinary anymore, but minuscule windmills that can charge your phones? Now, those are something new. A couple of UT Arlington researchers, Smitha Rao and J.C. Chiao, have developed wind turbines so small ...

The Onewheel self-balancing, single-wheeled skateboard comes to CES, we take it for a spin (video) The Onewheel self-balancing, single-wheeled skateboard comes to CES, we take it for a spin (video) It's hard not to do a double-take when first laying eyes on the Onewheel. After all, it is a single-wheeled skateboard that uses an electric motor, accelerometers, gyros and a microcontroller to give riders a...

Why wear your heart on your sleeve when you can wear your charger cable on your wrist with the Cabelet? Why wear your heart on your sleeve when you can wear your charger cable on your wrist with the Cabelet? Although I will admit that I am not much of a fashionista, I have been known to investigate and dabble in new fashion trends. One of trends that has been...
