

ENGINEERING MANAGEMENT, INFORMATION, AND SYSTEMS (EMIS)

we engineer better business

DEPARTMENT OF THE SMU LYLE SCHOOL OF ENGINEERING

Opportunities for Working with the EMIS Department

When you...	Hire a student for a co-op or internship	Expect to...	Find a talented employee, at a cost-effective hourly rate that you can preview for possible FT recruiting.
When you...	Hire a graduate full time	Expect to...	Connect with a dedicated worker with strong analytical talents, technical proficiency, and business acumen.
When you...	Participate in a faculty research project	Expect to...	Gain fresh ideas, a new perspective, and ultimately a competitive advantage in your industry.
When you...	Serve as a guest speaker in the classroom or lecture hall	Expect to...	Make new contacts among faculty and students; and interact with a captive audience eager to learn about the topic that inspires you.
When you...	Send current employees for EMIS higher education	Expect to...	Enhance your staff's technical and managerial skill sets; develop employee loyalty; and strengthen your organization's capabilities.
When you...	Work with EMIS to structure customized master's programs for your employees	Expect to...	Ramp up the expertise of your current workforce and prepare for the exit of the experienced Boomer generation.
When you...	Have challenging research problems	Expect to...	Find faculty and doctoral students eager to devise practical solutions. Discover paradigm-shifting approaches and partners for federal funding of the research.
When you...	Utilize a faculty internship	Expect to...	Engage a creative analytical mind to analyze your challenges then develop ideas, approaches, models, and systems to address them.
When you...	Become a senior project client	Expect to...	Have an enthusiastic team of seniors design and prototype a solution to a current problem in your company.
