MILESTONE 4: PRESENTATIONS

- All students need to attend both sessions or points will be deducted from their presentation grade. Example: if you present on the first presentation day and do not attend the second presentation, or vice versa, points will be deducted from your presentation grade.

- Each presentation is 20-min per team. This is your acceptance/delivery step in the process.
  - During the presentation, you will go over all the deliverables of your project
  - Don't make assumptions that the client "remembers" what was presented in earlier stages of the project
  - In the class, we will have 2 designated people as the "client team" to whom you are presenting
