Summer 2010:
Produce a short report/presentation to be given at the first QEP Committee meeting of the Fall. This meeting will be held the week of August 30. This report should answer the following questions:

1. What parts of the UC overlap with the QEP mission?
2. Identify QEP student outcomes that can be tied directly to the new UC requirements.
3. Indicate potential metrics that can be used to measure the effectiveness of the associated UC/QEP outcomes.
4. What is the development/implementation timeframe of the UC? Using this, propose an implementation strategy (tied to this) to implement the QEP outcomes tied to the UC. Provide an outline of implementation over five years.

Fall 2010:
Writeup your results for the draft committee report due in November 2010. The actual outline of the report will be determined in September 2010.

Other duties of your subcommittee will be determined as the work progresses.
